Grizzly Peak at Disney California Adventure Park: Fact Sheet

**Walt Disney on respecting nature:** “Physical America — the land itself — should be as dear to us all as our political heritage and our treasured way of life. Its preservation and the wise conservation of its renewable resources concerns every man, woman and child whose possession it is.”

**Overview:** Grizzly Peak takes Disney California Adventure Park guests to rugged Gold Rush country. The rocky mountain summit looks like a grizzly bear roaring into the sky, but the beast is much more than a pretty face. The history of the mountain is a combination of legend and Disney imagination. The tale goes like this: A long, long time ago, a coyote met a grizzly bear at the top of the mountain and asked the bear to protect the land. One day, people came to the mountain to chase the grizzly bear down, but the bear held his ground. The coyote turned the grizzly bear into stone so that the bear could never be driven away. Today, some observant mountaineers claim they can hear the bear’s spirit when rafting through the windy caverns of Grizzly Peak.

**What’s new:** As of 2016, Disney Parks guests can experience **Soarin’ Around the World**, the newly reimagined attraction that whisks guests on a journey above more than a dozen wondrous international destinations around the world. During the journey, guests experience jaw-dropping natural and man-made landmarks like the Great Wall of China, Sydney Harbor in Australia, and the Matterhorn in Switzerland.

**Don’t miss:** Grizzly Peak is the site of the rafting adventure, **Grizzly River Rapids**, a Disney FastPass attraction that sends guests roaring through rough waters. Guests can also explore **Redwood Creek Challenge Trail** to earn their Wilderness Explorer badges. In the Redwood Creek Challenge Trail, adventurers of all ages can head off into the woods to climb, swing, slide, glide and play.
